PROJECTS AND PAPERS

Hire Minds | *Smart Employee Interview Pipeline* **04/2025 – Present**

- Developed a smart interview pipeline for DRDO hiring using custom data generation, EDA, and ML algorithms to streamline recruitment.
- Used models like XGBoost and Random Forest to evaluate candidates effectively and improve selection efficiency.
- Automated and optimized key stages of the hiring process, reducing manual effort and bias.

KisanSarthi | *Smart Farmer Assistant* **09/2024 – 12/2024**

- Integrated CNN and LLM model which can predict 48 unique types of diseases in the 10 most common crops grown in India.
- Integrated LLM which fetches real time weather data to give farmers accurate prevention and management tips for their crop diseases.
- Fetches current tweets from important farmer bodies to give farmers real time updates on important news.

PersonaEye | *Personal Brand Chatbot* **09/2024 – 10/2024**

- Build a chatbot which gives custom personal brand advice.
- Chatbot implemented through the concept of RAG (Retrieval Argumentor Generator) and buffer memory in LLMs.

Enhancing Plant Disease Detection with CNNs and LLMs | *Research Paper* **10/2024 – 12/2024**

- Paper accepted to be presented at ICUMT 2024 in Spain.
- Based on the techniques me and my teammates used to make our smart farmer assistant.
- In contribution with fellow student authors *Siddharth Sharma* and *Avaneesh Garg.*

SKILLS

- **Technical Skills** — *Generative AI, Deep Learning Data Science, Web Design*
- **Languages and Frameworks** — *Python, Java, HTML, CSS, JavaScript, SQL*
- **Communication Skills** — *Written and Oral Communication: English, Hindi, French*

Technical Skills: Intermediate

Language Proficiency: Strong

EDUCATION

Amity University Uttar Pradesh | *Bachelor of Technology (AI)* *Noida, UP* | **09/2022 - Present**

- Cumulative **GPA**: 8.41/10.00
- Design Team Member of Srijan Society

The Indian School *New Delhi, Delhi* | **04/2009 - 06/2022**

- Higher Secondary **Percentage**(12th): 85%
- Matriculation **Percentage**(10th): 88%

Additional Courses

- Web Development Bootcamp, Python for Data Science, Probability Theory for Data Science, Micro Certification ServiceNow

EXPERIENCE

Tech Mahindra Makers Lab | AI *R&D Intern* *Pune, Maharashtra* | **04/2025 – Present**

- Explored applications of digital twins in medicine, focusing on their potential to enhance diagnostics and personalized healthcare.

Orinson Technologies | *Full Stack Development Intern* *Remote* | **12/2024 – 12/2025**

- Developed responsive web pages and full stack applica0ons with modern design and func0onality.
- Implemented CRUD operations and user authentication for 2 full-stack projects, managing 100+ data entries securely.
- Built a portfolio showcasing 5+ projects, increasing visibility to potential employers and collaborators by 40%
