Job Description: AI Engineer (Fresher)

Position

AI Engineer (Fresher)

Location

[Your City/Remote]

Job Type

Full-time

About the Role

We are looking for a passionate and motivated AI Engineer fresher to join our dynamic team. As an AI Engineer, you will work on cutting-edge artificial intelligence technologies to build intelligent solutions that solve real-world problems. This is an excellent opportunity for recent graduates or early-career professionals eager to grow in the AI domain.

Key Responsibilities

- Assist in designing, developing, and deploying AI and machine learning models.
- Participate in data collection, preprocessing, and exploratory data analysis.
- Work with cross-functional teams to understand project requirements and deliver AI solutions.
- Help optimize and fine-tune AI models for performance and accuracy.
- Stay updated with the latest AI research, tools, and best practices.
- Support documentation and testing of AI applications.

Qualifications

- Bachelor's degree in Computer Science, Electrical Engineering, Data Science, or related field.
- Basic understanding of machine learning algorithms, deep learning, and AI concepts.
- Experience with Python and AI/ML libraries such as TensorFlow, PyTorch, or scikit-learn.
- Familiarity with data preprocessing and model evaluation techniques.

Job Description: AI Engineer (Fresher)

- Strong analytical and problem-solving skills.
- Good communication and teamwork abilities.
- Eagerness to learn and adapt in a fast-paced environment.

Preferred Skills

- Knowledge of natural language processing (NLP), computer vision, or reinforcement learning.
- Experience with cloud platforms (AWS, Azure, Google Cloud) for AI deployments.
- Familiarity with version control tools like Git.

What We Offer

- Mentorship from experienced AI professionals.
- Opportunities to work on innovative projects.
- Friendly and collaborative work environment.
- Career growth and learning opportunities.
